Secular Theology for Kindergarten

In the field of Theology, the study of the nature of God, we find two main groups championed by people who, surprisingly, may not even have the equivalent of a Kindergarten Diploma on the subject.

People who don't even have a definition of godhood yet claim some "scholarly authority" on the word god.

On one hand we have the Faith-based Theologians, who know that words have meaning, yet prefer to believe, to bypass Reason, in order to satisfy their addiction to the fuzzy warmth of faith. They certainly don't care to do the work needed to clarify the meaning of the word god. All they need is their fix of faith.

On the other hand we have the Atheists. Some of whom are gnostics who claim that god does not exist and others who are agnostics because they claim that the gods we heard of do not exist but prefer to reserve their final judgement.

In any case, atheists are also unlikely to deserve any Kindergarten Diploma in Theology, for the work done on Defining Godhood, since they are too busy giggling at the examples of gods provided by faith-based theologians.

Secular Theology for Kindergarten

Fortunately, Secular Theologians have arrived on the scene with three kindergarten sized text.

With the first one, **Introduction to Secular Theology**, we point out the need to know the meaning of words before selecting them. Especially if we consider the word God.

With the second, **Defining Godhood**, we attempt to define the *title* given to qualified beings. Just as we have to have a proper definition of knighthood, or priesthood, before we can grant it to those who qualify.

And with the third, **The Moral Code of Sovereign Beings**, we propose an "ideal code of conduct" as an attempt to apply the meaning of the word God. Too many people wrap themselves in morality, champion good over evil, yet, sadly enough fail to provide their Moral Code. That is the Moral Code we need to judge them.

Finally, let's keep in mind that, starting with the "letter" of the word god, we reach beyond its spirit, its meaning, and enter the realm of its very soul, its real meaning, and that, in this endeavour, a Kindergarten Diploma is a long way from a PhD.
